HOSTED BY GDE | GLOBAL DENTISTRY EXCHANGE

COURSE SYLLABUS · KUALA LUMPUR

estrategic

Anterior Composite Restorations in Clinical Practice

Minimalism and Naturalness

Two days in Kuala Lumpur with Dr. Ana Luiza Libório

DATES	FORMAT	HANDS-ON	LANGUAGE
27–28 May 2027	Two full days	25 benches	English

THE COURSE

Six strategies, and the judgement to pick between them.

Most anterior composite disappointments are not shade failures. They are optical ones — dentine laid too thick, enamel that doesn't transmit, a surface that scatters light where it should reflect it. So the restoration reads as a restoration.

Estrategic starts with the decision you make before you open the composite.

> WHO THIS IS FOR
>
> General dentists who already place anterior composites. You should be comfortable with your adhesive protocol and basic layering — the course starts from strategy selection, not from bonding fundamentals.

THE SIX STRATEGIES

What you will be choosing between

Each one is taught with its indications, its limits, and the case in which it is the wrong answer.

Veneer
Direct composite veneering across the anterior segment

Layering
Full stratification with dentine and enamel masses

Recontouring
Reshaping form and proportion without full coverage

Deep fake optics
Her term for the optical illusion of natural depth and translucency

Strategic additions
Targeted freehand increments where they earn their place

Simplified technique
A reduced sequence for predictable daily practice

DAY ONE · FULL DAY

Theory

01 Anatomy and optical characteristics of anterior teeth

02 Colour and optical properties of dental tissues

03 Types of composite resins and their indications

04 Layering sequence using different restorative strategies

05 Simplified and deep fake optics techniques

06 Freehand and silicone index technique

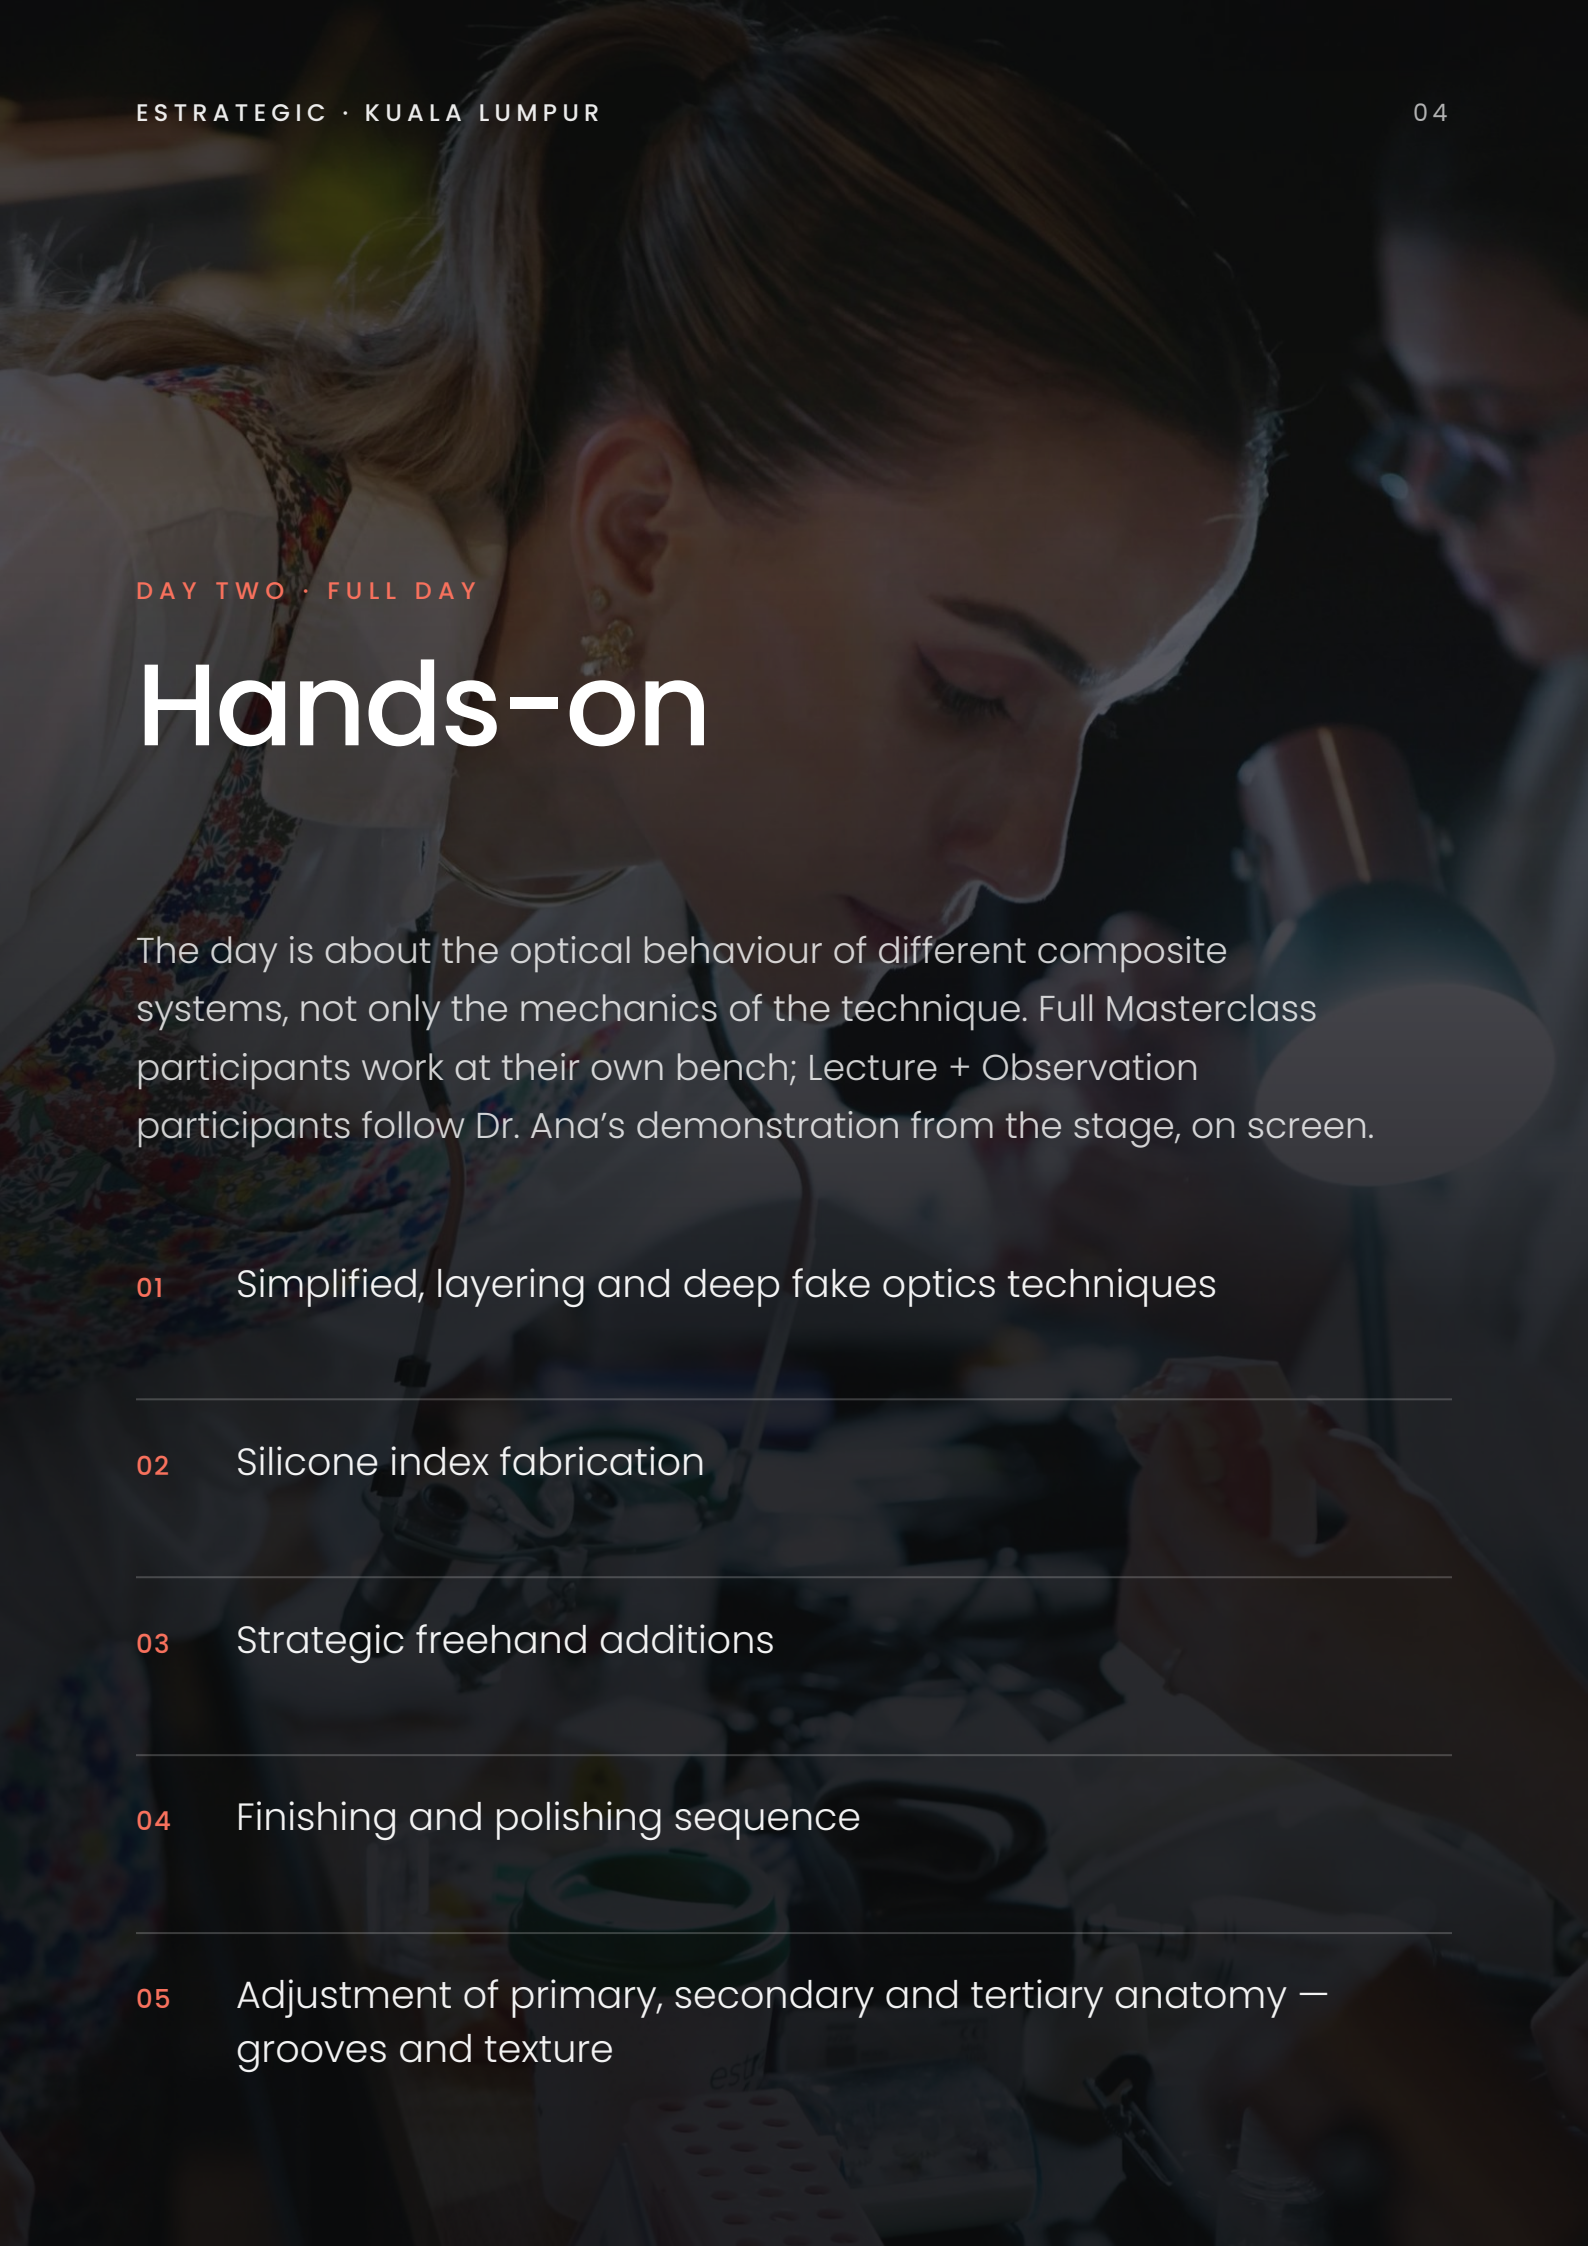

07 Substrate analysis and definition of the restorative strategy

08 Smile aesthetic analysis

09 Finishing and surface texturisation

10 Final polishing sequence

11 Preventive maintenance

DAY TWO · FULL DAY

Hands-on

The day is about the optical behaviour of different composite systems, not only the mechanics of the technique. Full Masterclass participants work at their own bench; Lecture + Observation participants follow Dr. Ana's demonstration from the stage, on screen.

01 Simplified, layering and deep fake optics techniques

02 Silicone index fabrication

03 Strategic freehand additions

04 Finishing and polishing sequence

05 Adjustment of primary, secondary and tertiary anatomy — grooves and texture

ON THE BENCH

What is provided, what to bring

25 hands-on seats. Everything below is per Full Masterclass participant.

PROVIDED

Composite resins

For all hands-on practice across the second day.

PROVIDED

Basic instruments

Plus a bur set that is yours to keep.

BRING

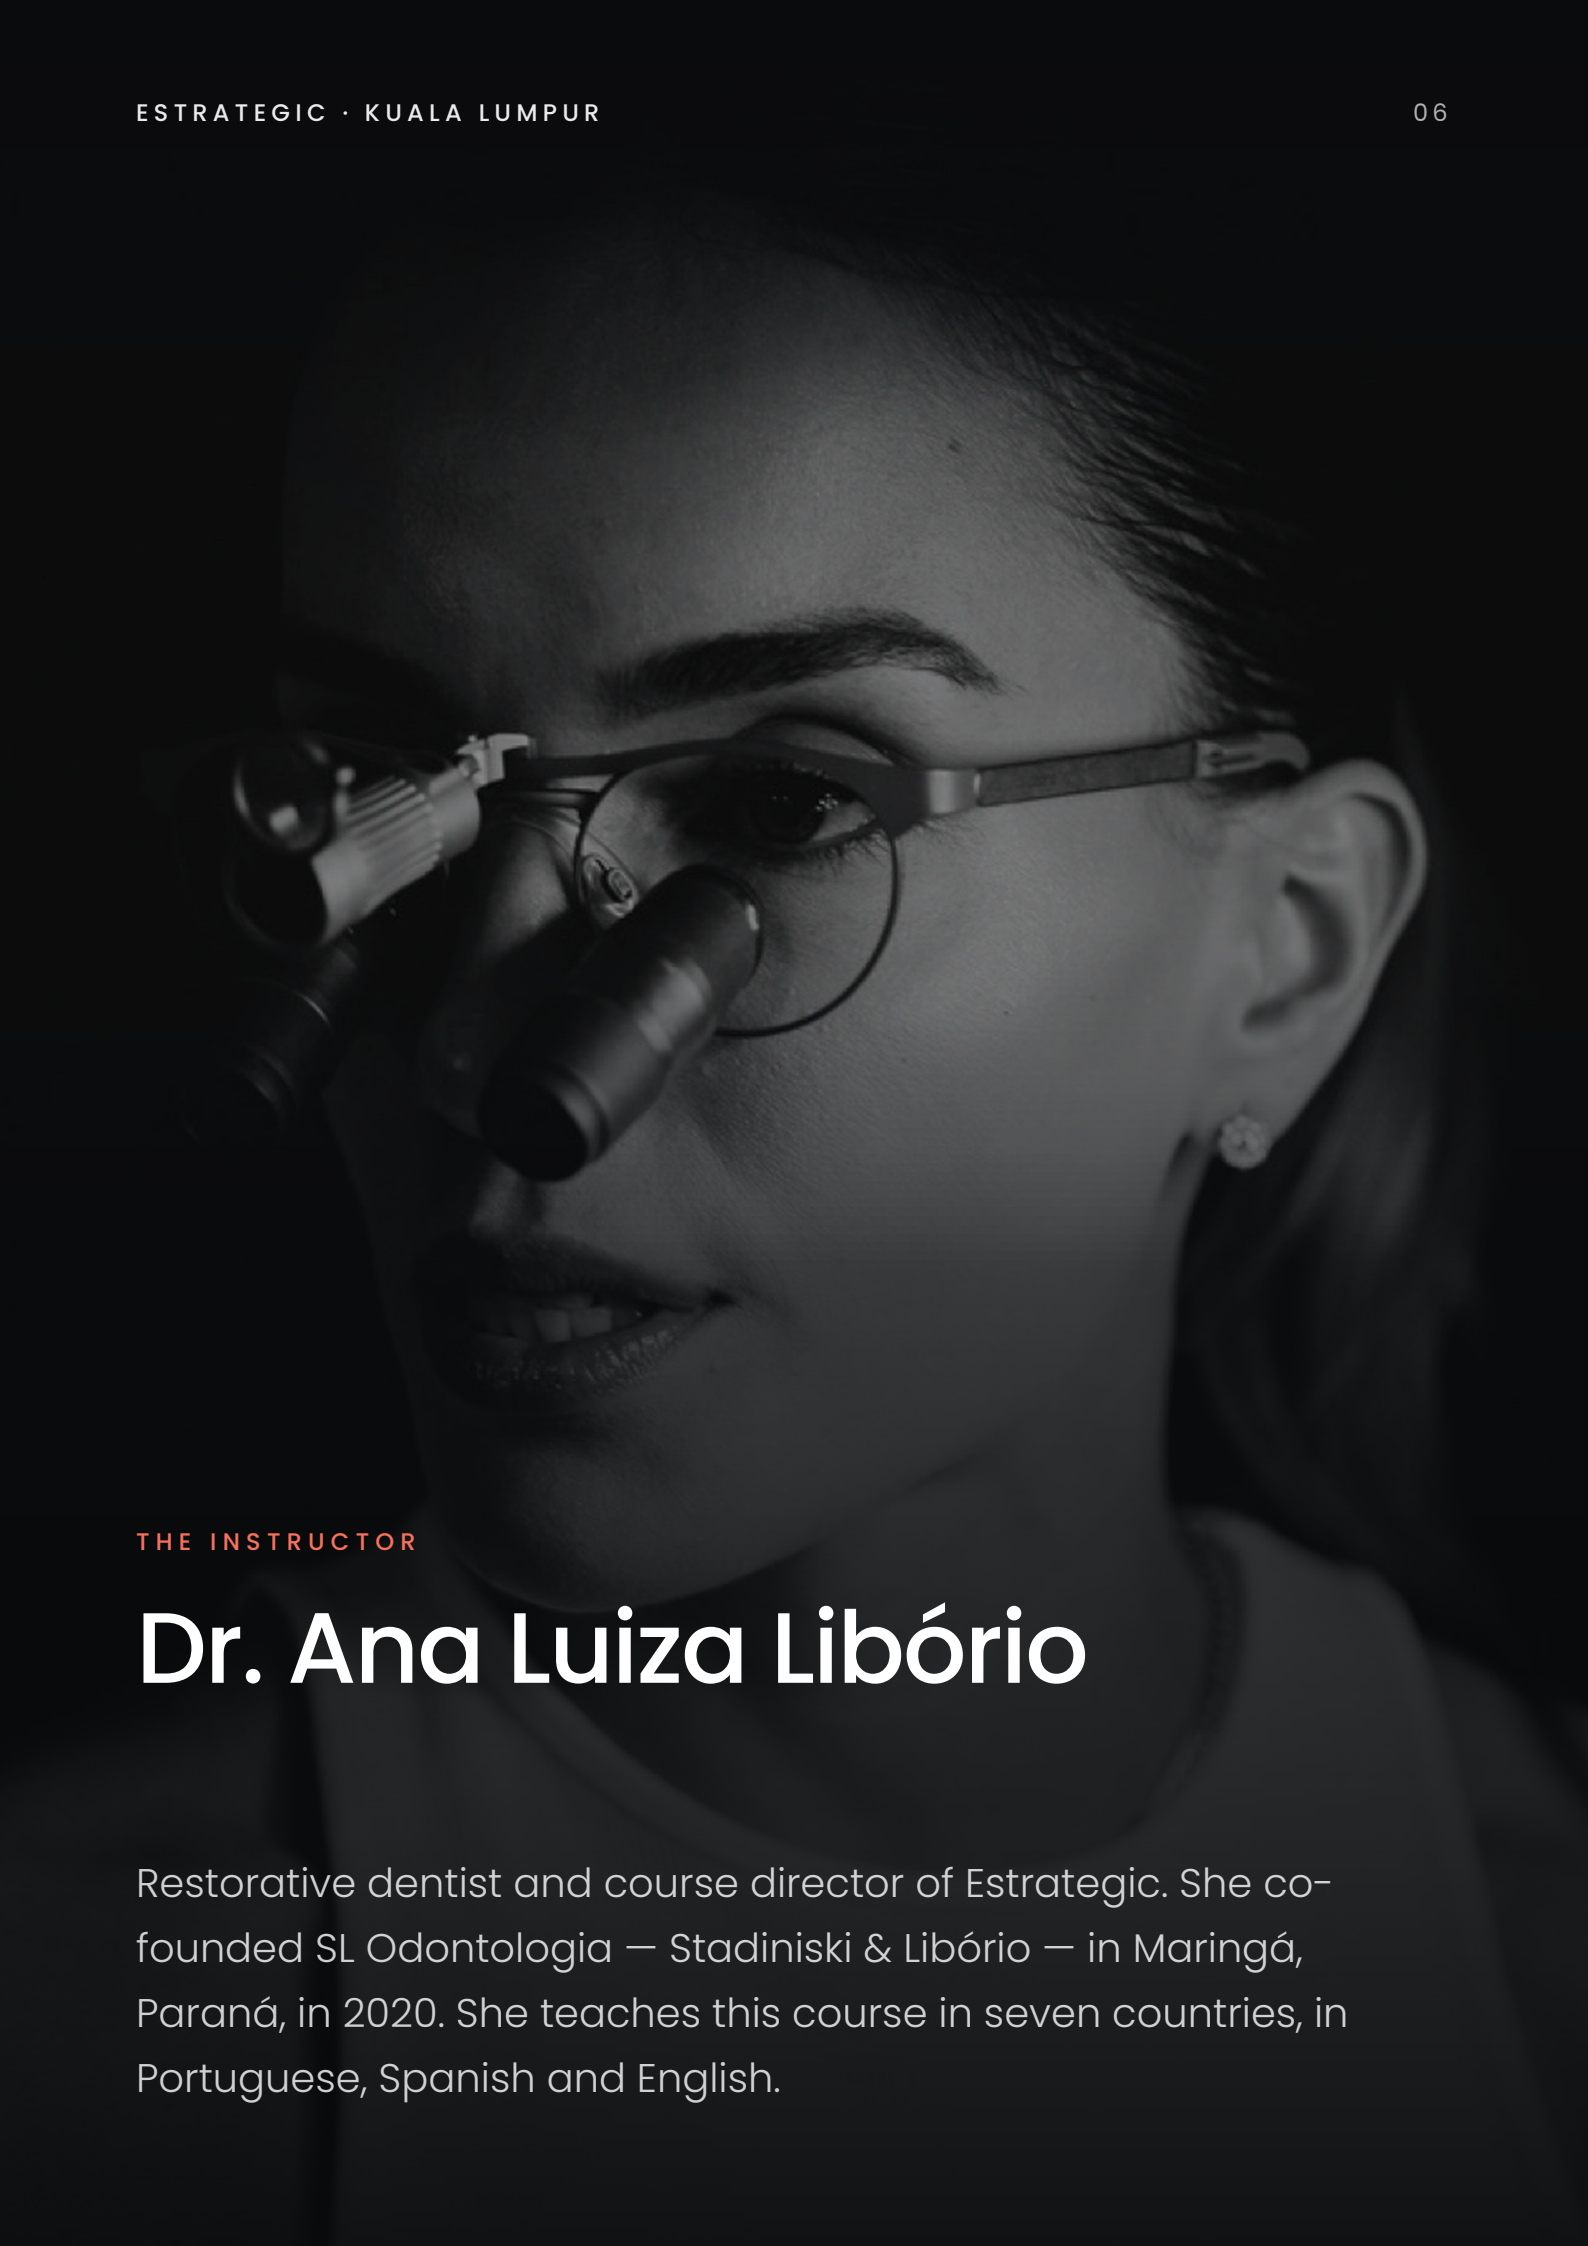

Your resin instruments

You will work faster with the set your hands already know.

SEATS

25 benches

100 Lecture + Observation seats, both full days in the hall.

THE INSTRUCTOR

Dr. Ana Luiza Libório

Restorative dentist and course director of Estrategic. She co-founded SL Odontologia — Stadiniski & Libório — in Maringá, Paraná, in 2020. She teaches this course in seven countries, in Portuguese, Spanish and English.

TRAINING AND TEACHING

DDS — State University of Maringá (UEM), 2012–2016

Specialist in Restorative Dentistry — residency programme, State University of Londrina (UEL), 2017–2019

MSc Restorative Dentistry — São Leopoldo Mandic, Curitiba campus, 2023–2025

Speaker — IN26 Latin American Osseointegration Congress, São Paulo

Teaches in English — Vilnius, Lithuania — two editions in July 2026; Bucharest, Romania — November 2026

WHERE ESTRATEGIC HAS RUN

Brazil — Rio de Janeiro, São Paulo, Maringá. Portugal — Coimbra. Spain — Valencia. Lithuania — Vilnius, twice. The United States — Miami. Bucharest follows in November 2026. Estrategic then returns to Seoul in May 2027 for its second Korean edition — hosted by Newtis, sponsored by KiDA, GIA and High Dental Korea — five days before Kuala Lumpur.

PRACTICAL INFORMATION

The two days

Kuala Lumpur, two full days, taught in English. 25 Full Masterclass benches and 100 Lecture + Observation seats.

DATES

27–28 May 2027

Thursday and Friday. Two full days.

VENUE

Kuala Lumpur

Announced before booking closes; the full address comes with your confirmation.

LANGUAGE

English

All teaching, slides and course materials.

CAPACITY

25 benches · 100 lecture

Both tiers attend both full days.

FULL MASTERCLASS

From RM 4,899

RM 4,899 first ten · RM 5,399 to 31 Mar 2027 · RM 5,899

LECTURE + OBSERVATION

From RM 2,599

RM 2,599 first ten · RM 2,899 to 31 Mar 2027 · RM 3,399

WHAT THE FEE COVERS

Included

- Both full days of teaching, for both tiers
- Full Masterclass: composite resins, basic instruments and a bur set to keep
- A certificate of attendance
- A 30-day post-course WhatsApp group for participants, hosted by GDE
- This edition does not carry Malaysian Dental Council CPD points.

REGISTRATION & ENQUIRIES

Payment in full at booking. Seats transfer free of charge to another registered dentist, up to 14 days before the course. Seats are not refundable against a change of mind; if the date or city changes, or the course does not run, everything you paid is refunded in full.
